

## Pleasant Hill Sidewalk Installation Project

The City of Pleasant Hill is currently receiving contractor bids for the Pleasant Hill Road Sidewalk Installation Project (Pleasant View Drive to Cumberland Drive), Project No. 02-21. Bids will be opened on Tuesday, September 14, 2021, at 2:00 P.M.

The work includes demolition of existing improvements including concrete curb, gutter, portions of existing concrete driveways, and AC pavement; clearing and grubbing; and sign relocations. New construction will include 3,644 SF of ADA compliant concrete sidewalks and driveways, 5 new curb ramps, 569 LF curb and gutter, mulch or landscape conforms, new drainage, traffic striping, and asphalt concrete conforms.

When finished, the project will complete the last sidewalk gap on that stretch of road and provide a continuous pedestrian facility along the west side of Pleasant Hill Road from Oak Park Boulevard and Gregory Lane. The new sidewalk will allow residents living along Pleasant Hill Road to walk safely to the Pleasant Hill Elementary School, as well as the numerous destinations along Oak Park Boulevard.

Construction is expected to begin this Fall.
